

It's safer and it's the law. Under 13 in the back seat!

RCW 46.61.687

- Everyone is safer in the back seat! Especially children.
- Children under age 13 must ride in the back seat, whenever practical to do so. Exemptions include trucks and 2-seater vehicles.
- It's what's on the inside that counts! It's not about their size and weight, it's their bone strength and body structure which aren't strong enough to withstand crash forces until about age 13.

Help us keep your kids safe!
