

Working Smoke Alarms Save Lives.

Test Your Smoke Alarms Every Month!

Smoke Alarm Safety Tips

- Smoke alarms should be installed on every level of the home and inside each bedroom.
- Maintain alarms by testing them once a month to make sure they work. Replace the batteries once a year, unless they are 10 year lithium batteries.
- Replace the smoke alarm unit every 10 years.
- Never remove or disable smoke alarms.
- Create & practice a fire escape plan. Know 2 ways out of each room. Have a meeting place outside of the house.
